This game is absolutely amazing. It's the sort of game where you see the high scores at first and think, "how did people ever get there?" and then with each session you notice your score getting more and more digits. Easy to pick up, challenging to master, cute and funny and deceptively deep, complete with that Into the Breach thing of constantly learning how different mechanics interact. More people desperately need to play this game.

NOTE: My playtime here is relatively short because I also play on my phone and tablet - taken together, my actual playtime would be several times what you see on the stats here.. Twifold is fantastic. The flat design artstyle is very pretty, and there's a surprising amount of strategy in how you use abilities. However, I don't see any reason to play the PC version over the mobile version, so maybe get the mobile version instead?. Twifold is fantastic.
